**“Mineralogical and metallogenetic study”**

# Until now...

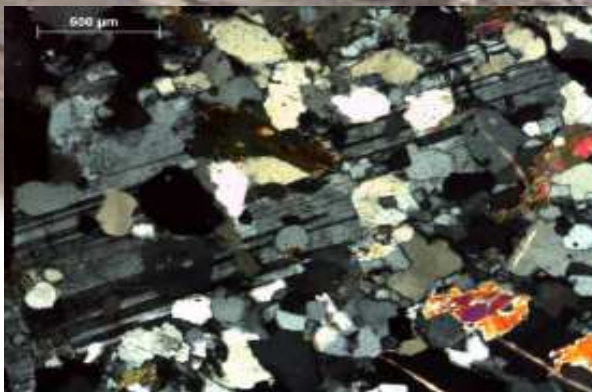

On 12th June, Cartif researchers Pedro Acebes and Jorge Calvo, along with FCUP researchers Fernando Noronha and Luis Lima, members of the ESMIMET project team, visited the feldespar, quartz and lepidolite mines operated by MINERAL INDUSTRIAIS, S.A. in the municipality of Guarda, Portugal.

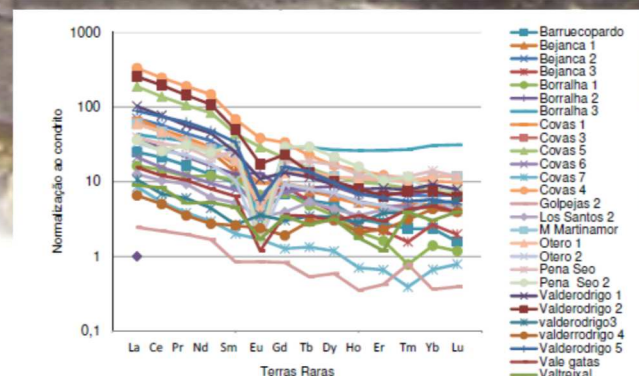

On 13th June, members of the ESMIMET team by CARTIF Pedro Acebes and Jorge Calvo, by FCUP Fernando Noronha and Luis Lima and their coworkers from the University of León Ana María Castañón and Pablo Caldevilla, all members of the ESMIMET project team, visited the Panasqueira Mines, operated by BERALT TIN AND WOLFRAM PORTUGAL.

Siemcalsa technicians, ESMIMET project partners, have attended the XVIII Congreso Internacional de Patrimonio Geológico y Minero organized by the (SEDPGYM) Sociedad Española para la Defensa del Patrimonio Geológico y Minero within the dissemination activities of the ESMIMET project. The Congress was held on 27 and 28 September at the UNED headquarters in Ponferrada(León).

Within the mineralogical and metallogenetic studies, the deliverables of types of geological alterations and the typological classification of the mineralizations have been carried out, as well as the deliverable for the selection of metallotects.

# Coming Soon...

In the last quarter of 2019, the planned technical and dissemination tasks will continue
